Professional Summary

Recent Integrated B.Tech–M.Tech (IT) graduate from IIPS, DAVV with a strong foundation in software development, AI, and automation. Skilled in Python and web technologies, with hands-on experience in developing AI-based projects such as VAANI AI Voice Assistant and Face Detection Attendance System. Passionate about learning new technologies and contributing to innovative solutions in a professional environment.

Education

- **International Institute of Professional Studies, Devi Ahilya University, Indore** B.Tech – M.Tech (Integrated Dual Degree) : Information Technology (2021–2026)
- **Sardana International School [SIS], Dewas** Class 12th, Central Board of Secondary Education (2021)
Percentage: 80.5
- **Gyan Sagar Girls International School [GSGI], Dewas** Class 10th, Central Board of Secondary Education (2019)
Percentage: 81

Projects

VAANI – AI Voice Assistant

Technologies: Python, Eel, HTML, CSS, JavaScript

- Developed an AI-powered voice assistant that enables users to perform desktop and web automation through voice commands.
 - **Key Contributions:** Implemented voice recognition, text-to-speech, and automation features with an interactive user interface.
 - **Achievements:** Improved command accuracy and enhanced user experience through efficient real-time processing.

Face Detection Attendance System

Technologies: Python, OpenCV, Streamlit

- Developed a web-based face detection attendance system that allows users to add faces and take attendance through a streamlined user interface.
 - **Key Contributions:** Built the 'Add Faces' feature and integrated a 'Take Attendance' button for real-time attendance recording.
 - **Achievements:** Improved the system's accuracy by optimizing the detection algorithm.

Handwritten Calculator App

Technologies: Python, TensorFlow, Streamlit

- Created a handwritten calculator that recognizes digits and performs arithmetic operations using a pre-trained machine learning model.
 - **Key Contributions:** Implemented preprocessing steps (resizing, grayscaling, normalization), model prediction, and optimized app loading time.

Student Registration Form

Technologies: HTML, CSS, JavaScript, MySQL, Python

- Built a student registration system with database connectivity.
-

Skills

- **Programming:** Python, C, C++, Java (OOPs), HTML5, HTML, CSS, JavaScript, React
 - **Frameworks:** ReactJS, NodeJS, Express
 - **Cloud/DB:** MySQL, Google Cloud
 - **Tools/IDEs:** Power BI, Git, GitHub, Unix, Apache Tomcat, Eclipse, IntelliJ IDEA
 - **AI Skills:** LLM Integration
 - **APIs:** REST API
-

Co-Curricular Activities

- Participated in technical workshops and seminars related to Information Technology.
- Actively engaged in arts and crafts activities, demonstrating creativity and attention to detail.
- Played basketball, developing teamwork and leadership skills.
- Practiced piano, enhancing discipline and creativity.
